SKILLS

Front-End: HTML, CSS, JavaScript, TypeScript, React.js, Next.js, Tailwind CSS, GSAP, Shadcn, Material UI, Ant Design, Template Customization

Backend Basics: Node.js, Express.js, REST APIs, MongoDB

State Management: Redux, Zustand,

Api Integrations: RESTful APIs, GraphQL, Stripe, Payment Gateways

Others: Teamwork, Problem Solving, Time Management, Python NPM, Yarn, Git

Experience

Front-End Lead Engineer | XperVault | Nad al Sheba, Dubai, UAE | September 2024 - Present

- Developed a comprehensive healthcare management system dOne, featuring smart forms builder, e-prescription management, EID reader integration, and role-based access control for multi-clinic operations with real-time subscription management.
- Built Xverse, a multi-tenant SaaS messaging platform enabling organizations to manage and deploy official WhatsApp Message Templates with automated high-volume outreach, agent chat assignment, and real-time campaign monitoring.
- Built robust JWT-based authentication system with HTTP interceptors, automatic token refresh, and role-based authorization supporting multiple user roles (superadmin/user) with secure API communication and persistent session management across application restarts.
- Created responsive, accessible interface using Tailwind CSS, custom component library, and Framer Motion with integrated ApexCharts/D3.js visualizations, PDF generation for medical reports, QR code functionality, and internationalization support for multi-language healthcare environments.

Front-End Web Developer | Olumi Tech | Lahore, Pakistan | May 2025 - January 2026

- Built scalable User & Admin dashboards for a SaaS business directory platform Sabkobil, supporting end-to-end business management.
- Implemented RBAC and dynamic CRUD systems, ensuring secure and efficient handling of business data.
- Delivered features for events, employee management, and review tracking, improving overall platform usability and workflow efficiency.
- Built a React-based POS system with inventory management and multi-channel sales integration.
- Built React.js dashboards with real-time analytics, Google Maps, and live updates via Socket.io.
- Designed responsive, interactive UI components using modern React patterns for seamless experience.

Projects

dOne | Healthcare Management System | done.digisol.ae

- Built smart form builder, e-prescription management, and EID reader integration for multi-clinic operations
- Implemented JWT authentication, role-based access control, and real-time subscription management
- Designed responsive UI with ApexCharts/D3.js visualizations, PDF report generation, and QR code functionality

Xverse | Multi-Tenant Messaging Platform | agent-xverse.ae

- Developed high-volume WhatsApp messaging SaaS with template management and automated campaign outreach
- Built agent chat assignment system and real-time campaign monitoring dashboard
- Implemented multi-tenant architecture with role-based access and isolated data management

Retailer Pros POS | pos.retailerpros.com

- Developed high-volume WhatsApp messaging SaaS with template management and automated campaign outreach
- Built agent chat assignment system and real-time campaign monitoring dashboard
- Implemented multi-tenant architecture with role-based access and isolated data management

Sabkobil - Business Directory SaaS Platform | sabkobil.com

- Developed scalable SaaS with admin dashboards, RBAC, and dynamic CRUD systems
- Delivered events, employee management, and review tracking features

EDUCATION

Bachelor of Science in Computer Science | The Islamia University of Bahawalpur | Bahawalpur, Pakistan | 2026
